

“Great Food for Great Kids”  
a fundraiser to benefit  
Baltimore Montessori Public Charter School’s  
Seed-to-Table Program

Baltimore Montessori located in the Greenmount West neighborhood, is a Baltimore City public charter school in its second year and offers a public school of choice option that provides a high quality Montessori education to a diverse group of children from all across the City at no charge to families. While we receive some funding from the district to pay for staff, we must rely on private donations from people like you to help fund all the innovative programs we hope to offer our students. We are currently raising funds to expand our Seed-to-Table Program in which our children participate in growing, preparing and serving healthy, whole foods from our garden and local sustainable farms.

Our Great Food for Great Kids Campaign has already funded the creation of a functional kitchen space where our students prepare healthy snacks for each class on a daily basis. Our children are also getting their hands dirty planting and growing fruits and vegetables in our school garden. They are learning the value of a sustainable food system and the importance of a healthy diet.

We would like to continue offering nutritional instruction and providing great food to great kids through our Seed-to-Table Program by serving not only healthy snacks but also a nutritious breakfast and lunch to our students. Creating and sustaining such a program will require additional renovations and equipment to create a fully operational kitchen facility as well as a need to hire additional staff. Though a huge undertaking we are committed to providing our children with the healthy, whole foods they need to nourish their growing minds and bodies.

We hope you will consider making a donation for our **Silent Auction Gala** for this worthwhile fundraising campaign -- "Great Food for Great Kids". Of course you will be listed as a donor in our auction program. A donation form is attached. We are also attaching an invitation and would love to have you join us in support of public schools of choice and healthy kids!

Note: We are a 501(c) 3 and will issue a letter with our tax ID number to acknowledge all donations.

If you have any questions please contact: \_\_\_\_\_ at \_\_\_\_\_.

Thank you!
